AIR SERNET SUPER

Dégraissant concentré pour nettoyeur CVC (serpentins de condensation)

DESCRIPTION

AIR SERNET SUPER, is a super-concentrated liquid formulated for cleaning and maintenance of all types of air conditioning equipment, improving and increasing the efficiency of heating and air conditioning units.

MODE D'EMPLOI

Eliminate the remains and deposits of dust, grease, oils that can appear in heating, ventilation and air conditioning devices, in the refrigeration industry. Apply the appropriate dilution depending on the dirt on the equipment. Spray with our IK sprayers. Leave the product to work for 5 minutes to penetrate the dirt, rinsing with water, without requiring pressure due to the great entrainment power of the product.

The product must be diluted in a ratio between 1:5 and 1:20 in water, depending on the state of the equipment to be cleaned.

APPLICATION

It is used for cleaning air conditioning or heating systems, evaporation coils, condensing coils, radiators, exhaust fans, air filters, etc.

FORMAT

- REF: 10265501
 - 1 liter bottle
Boxes of 12 units.
Complete pallets of 32 boxes
- REF: 10265505
 - 5 litre containers.
Boxes of 4 units.
Complete pallets of 32 boxes

PROPRIÉTÉS PHYSIQUES

APPEARANCE – TRANSPARENT LIQUID
COLOUR – AMBER – DARK BROWN
DENSITY – MIN. 1.241/MAX. 1.266
PH 100% – 13
SOLID STATE – 47.5%

COMPOSITION QUALITATIVE

SURFACTANTS
INORGANIC SALTS
HYDROXIDES (> 40%)
WATER
